

CLIENT-CENTRIC LIGHTING CONSULTANCY. MAKING LIGHTING **EASIER TO UNDERSTAND**.
PROVIDING SOLUTIONS THAT WORK FOR YOU.

RLT ONSITE LIGHTING CONSULTANCY.

TURNING VISIONS INTO REALITY AND **MAKING LIFE EASIER...**

Putting you **first** so the result is **second to none**

The lighting industry continues its transformation into LED and beyond. The continued breakthroughs and new developments provide almost limitless possibilities with light. Products are improved, new designs are created, lighting controls are simplified...

But regardless of the innovation in the lighting industry, the timeless importance of focussing on the client has never changed. That's what makes RLT Onsite consultancy different. A cutting edge product that works well in one application does not work well in every application. A breakthrough design that transforms one project does not transform every project.

The expertise that ensures we turn any vision into reality will turn your vision into reality!

INNOVATIVE TEAM

Your lighting scheme is exceptional, unique with specifics we may not have encountered in our 30 years of experience. Our values haven't changed. Using the same approach with energy, innovation, integrity and teamwork at the foundation, you can be assured of a strategic partner in RLT Onsite that puts you at the centre of everything we do.

UNDERSTANDING NEEDS

Regardless of how specific your requirements are, RLT Onsite will approach each project with an innovative mindset to ensure a stunning result. It is key that we understand you first to ensure we bring a scheme that works. This includes challenging the accepted norm, employing the use of experts in each field and brainstorming ideas.

...WITH CLIENT-CENTRIC LIGHTING CONSULTANCY

Changing the approach to lighting projects

3

DESIGN AND PRODUCT SELECTION

There will be a solution that performs for you. Having already understood your requirements, it is only then that we work with a diverse range of manufacturers to bring a high performance solution for you. Full render and design capability presented in a high quality book will be provided to make understanding your solution easier.

4

PRODUCTION AND DELIVERY

Key manufacturing partners across Europe ensure that RLT Onsite can work with rapid lead times on the most advanced projects. Our supply chain is carefully monitored to ensure high quality results that perform. Delivery to sites can be staged, split by area and labelled by plan to make life easier for installers.

5

POST COMPLETION SUPPORT

An after sales technical team is on hand to offer ongoing support with a unique package that will ensure value is maximised in you project. We'll even share our finished project images from our marketing team for use in your own marketing. You remain at the centre following any completed project to ensure the vision remains a reality.

OUR MISSION...

continuously dedicated to making life easier for our clients

OUR VALUES...

energy | innovation | integrity | teamwork
