RLT ONSITE LIGHTING CONSULTANCY.

PORSCHE | CHESHIRE OAKS...

PROJECT DESCRIPTION

Within their approved used department at the Cheshire Oaks dealership, Porsche were looking for a high performance luminaire for high performance vehicles! With such prestigious vehicles, it was critical to have a high quality product with a precise light colour, branded European control gear and excellent efficiency. Also required was the ability to repeat orders at short notice for other areas as they moved around the showrooms.

THE RLT ONSITE SOLUTION

Recognising that a car dealership is a retail environment, the RLT Onsite team utilised European manufactured products with precise colour rendering and branded control gear to ensure a solution that would continue to perform in the years to come. The result was a vast improvement in light levels as well as reducing energy usage. The luminaires used are designed to replace metal halide technology boasting well over 100lm/w.
