# easierTIPS

## The different types of emergency test keys

We are often asked which type of test key is used for which emergency test point.

The below illustration shows which key you use for which emergency test point

| | RLT CODE | |
|---|---|---|
|  | K3-4565E | This test key is specifically for the Eaton range of call points. |
|  | K3-4565 | This test key is specifically for the Crabtree range of call points. |
|  | K3-4565 | This test key is specifically for the Legrand range of call points. |
|  | K3-4565M | This test key is specifically for the MK range of call points. |
